

Contains 9 vitamins and minerals

New Zealand's unique climate, soil, and abundant water create an ideal environment for growing lush grass, which cows can access year-round. New Zealand's pasture-fed cows produce milk with a balanced ratio of omega-3 and omega-6 fatty acids, which are important for human health. Rich, creamy, and slightly sweet taste comes from cows grazing on green pastures, producing distinct "grass-fed" flavour.

Protein supports growth and development, helps build and maintain strong muscles, supports healthy bones, and provides lasting energy throughout the day. Made with quality ingredients, it's perfect for kids intense lifestyle.

Calcium has many benefits for the growing human body. It helps with strong bones and teeth, helps with muscles movements, supports normal blood flow and clotting, and maintaining nerve signals between brain and body.

Added **Dextrose** is quickly digested and replenishes energy in a short time. It helps with fatigue caused by mental exertion, like during exams or other tasks that require focus. It supports blood sugar levels and it is used as supplement after intense exercise or training.

Manufacturer: Wimpex Limited
Address: 3 Innovation Road, Waterloo Business Park,
Islington, Christchurch, Canterbury,
New Zealand 8042
Unique Location Identifier: 2204
Country of origin: New Zealand
Made in New Zealand from local and imported ingredients

Go Milk is a registered Trademark of Wimpex
Ltd and cannot be used without permission.

**Directions for use

Pour 8oz (240mL) of lukewarm or cold water into a cup.

Add 4 leveled scoops (1.25oz/35g) of milk powder to the water.

Stir until fully dissolved to make 275mL of milk drink.

You can adjust the amount of milk powder according to your taste. Enjoy!

Rich, creamy, and slightly sweet taste comes from cows grazing on green pastures, producing distinct "grass-fed" flavour.

Dietary fiber offers numerous benefits, including promoting digestive health, aiding in weight management, and may reduce the risk of chronic diseases. It also plays a crucial role in maintaining healthy gut bacteria.

Calcium has many benefits for the growing human body. It helps with strong bones and teeth, helps with muscles movements, supports normal blood flow and clotting, and maintaining nerve signals between brain and body.

Added **Dextrose** is quickly digested and replenishes energy in a short time. It helps with fatigue caused by mental and physical exertion, or other tasks that require focus. It supports blood sugar levels and it is used as supplement after exercise or training.
